

Albert Bolush

Fullstack Cloud Engineer & Product Builder

Location: Sweden | Email: alb.bolush@gmail.com | LinkedIn: <https://www.linkedin.com/in/albert-bolush>

## Summary

Engineer with 7+ years of experience designing scalable, event-driven systems and real-time applications.

Specialized in Node.js, TypeScript, and cloud-native architecture across AWS, GCP, and Cloudflare.

Building intelligent, autonomous systems and full products end-to-end â from backend APIs to frontend.

Currently exploring LLM-based automation and Rust for high-performance backend development.

## Tech Stack

Backend / Cloud: Node.js • TypeScript • PostgreSQL • GraphQL • REST • Serverless • AWS • GCP

Tools / Infra: Docker • Terraform • GitHub Actions • CI/CD • Monitoring

AI / Automation: LLMs • Autonomous Agents • Workflow Orchestration

Frontend / Mobile: React • Vue.js • Flutter

Learning: Rust

## Experience

Eletive â Senior Cloud Engineer (2023 â Present, Sweden)

- Architect and maintain event-driven backend systems using Node.js + GraphQL.
- Lead infrastructure optimization and scalability across multi-cloud environments.
- Integrate AI-driven automation into workflows and internal tooling.

Zmarta Group â Tech Lead & Fullstack Developer (2019 â 2023, Sweden)

- Led a team of 5 engineers delivering microservice-based fintech products.
- Implemented CI/CD and infrastructure-as-code pipelines for faster, safer releases.
- Drove architectural improvements and mentored developers across squads.

Foodhero â Founder & Cloud Engineer (Oct 2024 â Present, Latvia / Remote)

- Built and scaled Too Good To Goâ style food-waste platform reaching 20 000 + users.
- Designed backend APIs and realtime systems with GCP + Cloudflare + Firebase.
- Managed app, dashboard, and cloud operations end-to-end.
- <https://foodhero.app>

Shopamoji â Creator & Flutter Developer (2023 â Present)

- Cross-platform shopping-list app with voice input and localization.
- Achieved 25 000 + installs on Android + iOS.
- Android: <https://play.google.com/store/apps/details?id=com.shopamoji.app>
- iOS: <https://apps.apple.com/us/app/shopamoji-grocery-list/id1578027429>

Rephrase â Creator (2023 â Present)

- Mac app that rephrases or fixes text with a shortcut â like system-wide Grammarly.
- Built with Flutter + AI integration for multi-language support.
- <https://www.rephrase.space>

Gislaveds Kommun â System Developer (2018, Sweden)

- Developed internal web applications and SQL-driven tools for municipal workflows.
